Thanks so much, Chad. That helps. I'll go back into the WA standards and see if I can identify which segment of Icicle Creek I should be focused on, based on your map. Although, if you look at the table in the back of the standards and know in which segment the facility is located, that would help a ton too! Hope you have a good day.

Jill-

Here is a quick map that helps describe the WQ Standards we discussed. We are updating our display tools for the standards so this isn't publication quality. If you need something cleaner in the future, please let me know. Let me know if you have any questions.

Best regards,
